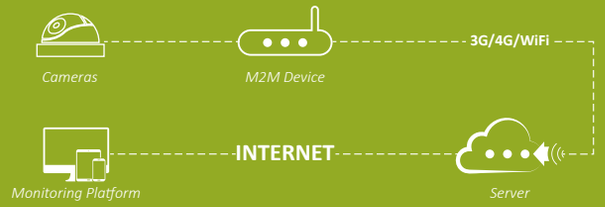
Vehicle Video Surveillance System



Adopting the high-performance processor and Linux operating system, Meitrack independently develops a new-generation wireless vehicle video surveillance system that uses H.264 video compression/ decompression, GPS positioning and wireless data transmission technologies. It is specially designed for mobile video surveillance for different types of vehicles, such as buses, long-distance coaches, taxis, logistics vehicles, armored cars, private cars, etc.

Shock resistant & Data encryption

Up to 2.5 TB/SD storage capacity

Alert video

Vehicle monitoring even in ACC OFF state
